

Press Release

Date: 10th October 2011

A85 Glen Ogle – Road Improvement Works **Overnight Road Closure 19th and 20th October, 2011**

Users of the A85 at Glenogle are set to benefit from a Transport Scotland investment of £55,000 in carriageway maintenance and improvement works. The works will be carried out by Scotland Transerv on behalf of Transport Scotland.

The works are programmed to be carried out between 10pm and 6am for two nights, 19th and 20th October, 2011. The affected carriageway will be under traffic management between the hours of 8pm and 10pm each night to allow the works site to be set up. For the safety of the public and our workforce the road requires to be closed during the works.

The road surface requires carriageway patching to allow the application of high friction surfacing. Emergency services will have access at all times and local access will be available as safety permits.

Motorists should allow extra time for their journeys and pay attention to any advisory signs which will be in place throughout the works. For real time journey planning information visit www.trafficscotland.org
