

Course summary:

National Highway Sector Scheme 12A/B for static temporary traffic management on motorways and high speed dual carriageways including on-line widening schemes.

Who should attend:

All persons who will be required by their employer to work on high speed roads, running mobile hard shoulder (or non-live lane) operations using an IPV and for protecting and installing static temporary traffic management. Course delegates must hold the appropriate HGV category on their driving licence. To drive on live lanes the candidate must hold a valid 12A or 12 C operative card as a minimum otherwise they are restricted to mobile hard shoulder operations.

Description:

- Quality Assurance and Sector Schemes
- Health and safety
- Reference documentation
- Traffic management vehicles
- Impact Protection Vehicle (IPV) drivers roles and limitations
- End of course question paper
- IPV drivers practical assessment
- End of course debriefing and evaluation.

Course objectives:

- Be aware of the Sector Scheme documents
- Be aware of the general health and safety requirements at work as well as those, which are specific to the traffic management industry
- Understand the importance of risk assessments and method statements for traffic management activities
- Be aware of the reference documentation used for traffic management
- Know the requirements for an impact protection vehicle as described in the relevant reference documents
- Be able to conduct pre-work checks on an impact protection vehicle
- Understand the procedures used for protecting the installation of a static temporary traffic management taper
- Understand the procedures used for protecting mobile hard shoulder operations
- Understand the extent of their duties after achieving this card
- Understand the different types of work that are beyond the scope of this training and require full mobile lane closure techniques to be implemented
- Demonstrate they have sufficient underpinning knowledge required to be an IPV driver
- Prepare an IPV ready for working on the hard shoulder
- Arrive on site and set up the operation correctly
- Operate to safe working procedures including hazard and junction negotiation
- Remove the operation correctly

Course Delivery: Classroom

Language: English

Duration: Novice Training Course 1 Day. Refresher Training 1/2 day

Max number of learners: Learner training course = 4 Refresher training course = 8
