

## Course summary:

The health and safety module allows operatives to gain the required level of competence to enter the Register of Landscape Operatives, and if required to go on to gain the LISS/CSCS card.

## Target Audience:

This course is open to anyone who works in the land based industry, i.e. Landscaping including arboriculture, pesticides and amenity, Ecology and Environment.

## Description:

This course covers the following areas:

- Health & Safety law
- Management of Health and Safety
- Control of Substances Hazardous to Health
- Personal Protective Equipment (PPE)
- Safety on Landbased Sites and Projects
- Health Risks
- Accident Prevention and Reporting
- First Aid
- Fire Prevention
- Safety Signs
- Environmental Issues

## Course objectives:

Following completion of this course you will have an understanding of health & safety practices and how it relates to the land based industry. The certificate also allows delegates who have passed their CSCS "touch screen" Health & Safety Test to apply for a LISS/CSCS Card.
